A Word from the President
Today, Dianova is in an exemplary position thanks to the skills and commitment of our teams, which remain dedicated to providing quality service to all our beneficiaries. As the new president, I am proud of Dianova. Proud of an organization that was able to professionalize itself and adapt to the challenges of our times while staying attentive to what we do best: contributing to the development of people, communities and organizations in the social and humanitarian spheres.

We need to keep up this work, day after day. We need to reinforce our position while remaining united and committed to our mission. At the same time, we must keep in mind that our organization does not exist on its own, but through the interaction and integration of the people who are part of it. It is our reason for being: people. Those that we are committed to helping. Those who trust us, who support and fund us. And last but not least, all those who are the arms, legs, head and heart of our organization: our employees and collaborators around the world.

All of them have the same spirit of solidarity and commitment anchored within them. But in order for them to give the best of themselves, it is essential to put in place people management policies which allow us to ensure well-being at work, work-life balance, pay equity, a fair distribution of positions between men and women, as well as continuing education and talent development. This doesn’t all happen by waving a magic wand – the effectiveness of these policies requires thinking ahead and communicating appropriately, without forgetting to monitor and assess their impact.

Since 2009, we have been gradually implementing the Dianova People Management Model within the Dianova network. Today, I am pleased to say that much effort has been made in this area, with convincing results. We’re on the right path!

I would also like to emphasize that three organizations have become new members of the Dianova network: Ray of Hope (Pakistan), Slum Child Foundation (Kenya) and Society for the Promotion of Youth and Masses - SPYM (India). The addition of new members creates a stronger network: a network better able to go farther, to make itself heard in forums and international meetings. Indeed, doing advocacy work, often in partnership with other NGOs, is one of Dianova’s strengths. As representatives of civil society, we are committed to upholding our convictions – in favour of the rights of people with addiction, including the right to treatment. To take into account the NGOs’ field experience.

In conclusion, I would like to once again thank all our teams for the assistance they have brought to all those who call on us, for their programs for addiction prevention and treatment, health promotion, education and vocational training, reception and support for migrants and refugees, help for homeless and transient people, assistance for struggling youth, and HIV/AIDS prevention.

To all, thank you.
Letter from the Director
For Dianova International, 2016 was a year committed to advocating causes that are important to us: our representatives attended over fifty meetings, conferences and seminars in Europe, Africa and America, reaching over 700,000 people online and offline! Dianova has also resolutely committed itself to making its voice heard by participating in 11 international surveys and studies conducted by the European Union, UNESCO and various NGO platforms.

In terms of drug policies and the management of addictions, we are committed more than ever to advocating a holistic approach that prioritizes health and safety and puts an end to the criminalization and incarceration of drug users. Addictions are a public health problem that must be addressed as such, with tools for prevention and treatment that are evidence-based and respectful of individuals, their expectations and their specific requirements.

That is why, almost twenty years after it was last held, the special session of the United Nations General Assembly on the world drug problem (UNGASS 2016) had immense implications for millions of stakeholders, drug users, NGO representatives and politicians. Since 2014, Dianova has been committed to preparing this event as a representative of civil society, and in February of this year our representative in Chile was invited to share Dianova’s experience in this country during an informal consultation organized by the United Nations.

In the following April, we were in New York to attend UNGASS and the discussions of the delegates of the 193 member states. What emerged from these discussions? No major breakthrough. On a positive note, UNGASS encouraged modest progress towards the introduction of more humane drug policies. More disappointingly, the criminalization of users remains commonplace and the death penalty is still issued in some countries.

Another significant event was the EWODOR symposium, held in September in Rome and organised by Dianova International and Dianova Italy. This was the 16th International Symposium of the European Working Group on Drug Oriented Research (EWODOR), an event that focuses on empowerment in therapeutic communities. The participants’ objective was to show that the modern therapeutic community is an effective and versatile model, at the forefront of the treatment of addictions and associated pathologies.

On 17 March, for the fifth year in a row, our representatives organised and coordinated a side event during the CND59, the 59th session of the United Nations Commission on Narcotic Drugs, in partnership with the associations Proyecto Hombre and Kethea. We should also mention the presentations given at various forums, including the 18th Ibero-American Seminar on Drugs and Cooperation in May, and the presentation of a project to prevent violence in schools in Uruguay, co-financed by the European Union, at the Forum on the Prevention of Violence, held in October in Caracas, Venezuela.

Our network is also committed to raising public awareness of the problems linked to the misuse of new technologies and the internet with the campaign #DontLetThemPossessYou, rolled out across several of the countries where we operate. And we’d like to give a special mention to Dianova Portugal, whose campaign has reached more than one million people!

We are also committed to women’s rights. We help women to become empowered and gain economic independence in developing countries. We want them to receive equal pay and protection against all forms of violence against them everywhere. With this in mind, on 22 March Dianova presented for the fourth time an event on the sidelines of the United Nations Commission on the Status of Women (CSW60), on “Women, drugs and development”. And we must not forget the participation of our representatives in various committees, platforms and meetings, as well as the resumption of the UN-Women campaign 16 Days of Activism Against Gender-Based Violence.

This letter would be incomplete without mentioning the work done this year by each of our ordinary members on the development of their own action plan on the basis of shared strategic directions approved by the assembly at the end of last year (see page...). Finally, I want to emphasize the commitment of all our members, as well as that of all their employees, associates and volunteers. Thanks to them, more than 25,000 people benefitted from the network’s initiatives this year.
Who We Are: The Dianova Network
3.1 A Committed International Network

Dianova is a transnational network established in 11 countries of Europe and the Americas. The members of the network develop innovative initiatives and programmes in the fields of education, addiction treatment and prevention, aid to migrants and refugees and social and community development.

In addition, Dianova participates in advocacy activities in international organizations, alongside other non-governmental organizations.

3.2 Our Shared Vision, Mission & Values

The members of the Dianova Network develop their actions on the basis of a mission, vision and values which are common to all ordinary members. Every initiative implemented by the Network’s members must be assessed beforehand based on their contribution to the network’s mission, their adherence to the vision and their respect of the core values which lay the bedrock of our identity.

**Our Mission** - Developing initiatives and programs with the objective of promoting personal self-reliance and social progress.

**Our Vision** - Our society must cope with many social challenges such as poverty, lack of education, violence and addictions. Dianova’s purpose is based on the conviction that, with appropriate support, each person will be able to find within him/herself the resources necessary to achieve success in his/her personal development and social integration.

**Our Values** - Our ethical framework are grounded in the following values: commitment, solidarity, tolerance and internationality.

3.3 Dianova International

The *Organisation Internationale Dianova*, or Dianova International is an NGO which is subject to Swiss Law; its headquarters is located in Lausanne and its operating unit in Castelldefels (Spain).

Dianova International is responsible for defining and coordinating the network’s general policies and for providing its members with assistance in the following areas: technical and financial matters, international relations, knowledge sharing and human resources development and training.

**Strategic Orientations 2020**

The overall policy of the Dianova Network is based on the reference framework defined as defined by the fifth strategic guidance document entitled “The Dianova Network Common Perspectives 2020” and approved in October 2015.

**Strategic Vision**

- Dianova is an international network active in the field of social solidarity economy and maintaining strategic alliances which contribute to a more just and equitable social development.
- Dianova is a proactive social agent which develops innovative actions, promoting organizational resilience as a deciding factor for development.
- Dianova develops diversified and trust-based projects with the public and/or private sectors, being a self-reliant, financially self-sustaining organization.
- Dianova is a reference for the organized civil society due to its interventions and advocacy actions impacting directly on public policies.

**Strategic Guidelines**

**Diversification:** We develop projects through strategic alliances which guarantee our autonomy and sustainability.

**Internationality:** Our purpose is to be citizens of the world, acting as international ambassadors of community networking.

**Proactiveness:** We take responsibility for making things happen.

**Adaptability:** We provide effective responses to the challenges of a changing environment, thus strengthening internal cohesion and organizational development.
**Strategic Plans by Member Organizations**

On the basis of these strategic guidelines, ordinary members of the network focused on defining their own plan of action. Each member organization started by describing itself, its working environment and the context for its interactions. As part of this process, an internal analysis was carried out to identify the organization’s strengths and weaknesses in terms of its management, services, social impact, human capital, communications and finances. At the same time, an external analysis identified the opportunities and threats in its environment.

All of this work was carried out collectively, with working groups comprising the management of the organization and the heads of the various departments, with support or coaching from external consultants if required. The results of this work were then approved by the boards of directors of the member organizations before being presented at the Delegates’ Meeting on 27 June 2016.

**The Dianova Network Manifesto**

The “Dianova Network Manifesto” was updated in collaboration with all member organizations of the Dianova network. The Manifesto was originally published in 2010 and reflects Dianova’s commitment and positioning in various areas of interest to the network. It is designed to be a reference tool used for various purposes, including preparation of advocacy activities deployed by Dianova International or its members.

The new version of the document is divided into two parts: the first describes the type of environment in which Dianova becomes involved and the relationships it develops there, while the second part focuses on the organization’s positioning on a number of fundamental social issues. The new version of the Manifesto will be presented to members for approval at the next Delegates’ Assembly in 2017.

**New Associate Members**

Following the promotion in 2015 of the new status of Associate Member of Dianova International, Dianova’s General Assembly this year confirmed three new associate members: the organization Ray of Hope (Pakistan), the Slum Child Foundation (Kenya) and the Society for the Promotion of Youth and Masses – SPYM (India). These three organizations join the Slovenian association Drustvo Up.

It will be recalled that associate membership status was created to enable organizations with similar commitments to join forces with Dianova in order to advance their common goals and to give civil society a voice within international organizations. The new status is open to non-profit legal entities registered with the United Nations Department of Economic and Social Affairs (UN DESA) or with ECOSOC status, and working in the fields of education, youth, addictions and/or social and community development.

**Governing Bodies & Chart**

The Assembly of Delegates is the highest-ranking body of the Dianova organization; each member organization appoints one or more representatives as a delegate to the Assembly.

Among other tasks, the Assembly Council is responsible for defining the strategic and operational frameworks common to the Dianova network member organizations.

**Election of the Assembly Council**

As the Assembly Council’s term of office has expired, delegates from the member organizations of Dianova International voted by secret ballot at the general meeting on 29 June 2016, to elect the members of the new Assembly Council to serve for a four-year term. Several of the outgoing council members stood for re-election, and new candidates were also put forward, namely Ms Elena Goti, Ms Ana Santos and Ms Elisa Stivan. The newly elected council went on to appoint the Chair and Vice-Chair of the Assembly Council (see table below).
**Ordinary Members**
- Asociación Dianova España (Spain)

The Activities of the Dianova Network
4.1 Core Principles

**Respect for the individual** – The person who chooses to request the services of Dianova is more important than the problems he or she faces. Any type of intervention must guarantee that it preserves the person’s dignity and rights.

**Social and educational dimension** – All programmes and activities are devised as spaces or places for learning and dedicated to personal growth.

**Objective: self-reliance** – The objective of Dianova is to help people become self-reliant, i.e. capable of taking responsible and clear decisions (regarding the consumption of alcohol and other drugs, their social life, their choice of employment, etc.).

**Integral Approach** – The Dianova model is characterized by a holistic, personalized and multidisciplinary approach that deals with individual and community problems as a whole, as a condition of effectiveness in any project.

**Optimal proximity** – A trust-based relationship is built between service users and professionals with the objective of reinforcing people’s emotional security, hence their motivation and learning capabilities.

**Interdisciplinarity** – The programmes are led by professionals with different complementary specializations and knowledge that enable to address each service user’s unique needs adequately. This concept is also applied to their external follow-up if needed (networking with other support services, social workers, doctors, social leaders, families, etc.).

**Partnering and networking** – It is deemed essential that every possibility offered by existing resources be considered, to enable service users to benefit from the highest quality level of intervention.

4.2 2016: Our Activities at a Glance

22,349 people served
587 collaborators (53% women - 47% men)
38 facilities (all programmes)

Dianova delegation in New York

A new agreement signed in 2015, has led to the opening of a new office located opposite the United Nations headquarters and recruitment of a person in charge of international relations. Since then, the Dianova delegation has maintained an active presence at meetings organized by the United Nations or the Organization of American States (OAS) and has strengthened our capacity for advocacy within international organizations and the various NGO committees to which Dianova belongs.

Advocacy

Promoting social and economic integration of migrants and refugees

Participation in the Xenophobia and Integration Sub-Committee of the NGO Committee on Migration (NGO COM)

Promoting women’s rights and empowerment

Participation in the NGO Committee on the Status of Women (NGO CSW)
Participation in the NGO CSW: Committee for the Preparation of the Commission on the Status of Women (CSW61) in 2017 and preparation of a written contribution
Organization of an parallel event during the 60th session of the Commission on the Status of Women (CSW60): “Women, drugs and development” with NGOs EURAD, General Board of Church & Society, Turkish Green Crescent and UNICRI
Participation in the “Orange the World” campaign organized by UN Women: 15 days of activism to end violence against women

16 days of Activism Against Gender-Based Violence’ campaign
4.5 Associate Members

Sensitization and awareness programmes on drug abuse prevention at over 100 government schools, for students and teachers

Training and refresher courses for NGO staff working in the field of substance abuse and addiction treatment

- During a trip to India in July of this year, Dianova USA director Ram Raman observed the significant work carried out there by SPYM, especially focusing on adolescent drug users. Ram Raman also met Dr Rajesh Kumar, Executive Director of SPYM, in New Delhi. Read article
International Relations & Advocacy
Dianova international activities have two main goals: on the one hand, we strive to defend a number of causes and opinions through advocacy initiatives, while on the other hand we are also dedicated to promote and publicize our work and that of our members before international organizations, other NGOs and the public at large.

**Dianova’s advocacy initiatives in 2016 were centred on the promotion of the following themes:**

- Person-centred, public health-based and gender specific addiction treatment and prevention activities,
- Human rights of people who use drugs, including the right to access treatment
- Access to services tailored to the needs of people with dual pathology (addiction and mental health),
- Gender equality and women’s empowerment in all areas,
- Human rights of migrants and refugees in line with the United Nations Charter and implementation of national initiatives to promote their integration in the best conditions,
- Increasing role of civil society and CSOs in international organizations.

Advocacy can be defined as set of activities and actions intended to influence the decision-making process with the goal of implementing, strengthening or modifying policies and practices, as well as support services and programmes.

Throughout 2016, Dianova International has participated in over fifty meetings, conferences and seminars in 19 countries of Europe, Africa and the Americas. In addition, Dianova International has contributed to 17 surveys, public consultations and written statements on the following issues: drugs and drug policies (8), gender equality (2), civil society (2), migrations (1), other issues (4).

*Our delegation in New York City allowed the organization to play a more active role in a number of committees and forums related to the United Nations’ social activities through our permanent representative. In addition, Dianova representatives participated in various official sessions and meetings online.*

### 5.1 Addiction and Drug Policy

**United Nations**

Dianova International maintains a close and continuous relationship with the *Commission on Narcotic Drugs* (CND), the principal political body in charge of international drug control, and, since 2007, has been a member of the Vienna *NGO Committee on Narcotic Drugs* (VNGOC), the body responsible for facilitating relations between NGOs and the United Nations in order to establish partnerships and involve civil society in the development of drug policies.

### Highlights

**United Nations General Assembly Special Session (UNGASS) on the World Drug Problem**

After years of preparatory work, UNGASS 2016 took place from 19 to 21 April in New York. The high-level meeting of the various Heads of State and Government was held in order to evaluate global drug policies implemented in the last decade and to design a common strategy for the future. Civil society organizations, including Dianova, were highly involved in the preparatory phase and in the UNGASS meeting itself.

Read Dianova’s contributions to the lead-up process for UNGASS 2016
UN Informal Interactive Stakeholder Consultation in the Lead-up to UNGASS 2016

Held on 10 February, the consultation enabled representatives of Member States, civil society, NGOs, academia, the scientific community and youth groups to share their best practices on the ground and their experience of the impact of drug policies, while addressing the challenges regarding addiction, health, illicit trafficking, crime, human rights, community development and sustainable development.

• Dianova selected to join UN Consultation – Contribution by María de los Angeles Lobos, Director of the Women’s Treatment Centre in Viña del Mar (Dianova Chile)

Organization of a Parallel Event to CND59

A parallel event to the 59th Session of the Commission on Narcotic Drugs (CND59) was co-organized and facilitated by Dianova, and attended by national and international official representatives and civil society organizations. In her speech, Dianova’s representative stressed the impact of the crisis on addiction-related issues in several southern European countries and the solutions implemented by the latter.

• Treatment of addictions in southern Europe, providing solutions in times of crisis, organized by Dianova and the Kethea and Proyecto Hombre voluntary organizations

The European Union is a key player in the design and implementation of regional and global drug policies. As the Dianova network operates in several European countries, Dianova International is taking a proactive stance with regard to European stakeholders, such as the European Civil Society Forum on Drugs (CSF), of which our organization has been a member since 2013. In addition, Dianova participates in the European Commission’s Expert Group, which brings together 45 civil society organizations to discuss a number of issues related to the preparation and implementation of European drug policies.

Participation in the Pompidou Group (Council of Europe)

The Council of Europe Co-operation Group to Combat Drug Abuse and Illicit Trafficking, also known as the Pompidou Group (an organization not within the remit of the European Union), organizes a training session each year aimed at executives involved in the development or implementation of drug policies. Dianova International was selected to take part in this annual session, where participants worked on the policy paper approved by the Council of Europe, addressing the interaction between governments and civil society on drug policies. 5.2 Gender Equality and Women’s Empowerment

Our commitment to women’s rights and gender equality has been a cross-cutting element of Dianova activities for many years. Each year, Dianova attends the United Nations Commission on the Status of Women (CSW), and has since 2013 been a member of the NGO Committee on the Status of Women, New York (NGO CSW NY).

**Highlights**

**Organization of a parallel event to the 60th Session of the Committee on the Status of Women (CSW60)**

The event aimed to highlight the need to adopt a gender-specific perspective in the design and implementation of programmes and policies for the prevention and treatment of addictions, in order to better respond to the needs of women in particular.

- **Women, drugs and development**, a gender perspective in drug-related issues, and their impact on sustainable development

**Migration & Development**

Within the Dianova network, the Dianova Spain association has since 2015 been actively assisting migrants through the implementation of a humanitarian reception programme and an international protection programme aimed at assisting applicants for and beneficiaries of international protection, stateless status or temporary protection.

Faced with the many human tragedies linked to the magnitude of current migration, Dianova International advocates on an international level for the implementation of more active policies, based on respect for human rights and focusing on support and development in the countries of departure, along with the creation of opportunities for legal work and integration in the host countries. Accordingly, this year Dianova joined the NGO Committee on Migration, a civil society platform for the promotion of human rights and the protection of migrants, refugees, stateless persons, internally displaced persons and victims of human trafficking. Dianova is currently active on the Subcommittee on Xenophobia and Social Inclusion, seeking to develop strategies for combating discrimination against migrants and for promoting inclusive societies.

5.3 Mental Health

**Mental Health**

Dianova International joined the NGO Committee on Mental Health (NGO CMH) in New York, in September of this year, then its Executive Committee the following month. The NGO CMH encourages collaboration between NGOs from around the world to press for inclusion of the mental health issue on the international agenda. Read article

The issue of mental health is an important aspect of Dianova’s programmes, which is why the organization intends to play an active role within the CMH NGO in order to advocate stronger policies and programmes in this area. Dianova and the CMH NGO intend to keep up the pressure on international forums to address issues relating to mental health and the rights of the persons affected, and to implement services tailored to the care of substances abusers with mental health issues.

**Role of Civil Society**

A prime focus of Dianova’s activity is promoting greater involvement of civil society in international organizations. Civil society organizations are in touch with reality on the ground. Their contribution to decision-making thus ensures that the various policies better meet citizens’ expectations.

For this purpose, Dianova has joined two platforms dedicated to promoting civil-society involvement: the Conference of NGOs in Consultative Relationship with the United Nations (CoNGO) and the NGO-UNESCO Liaison Committee.

Communication & Social Projects
6.1 Launch of Dianova’s New Web Site

As part of Dianova’s strategy for the year 2020, the organization’s new website was launched in July 2016, in three languages (English, French and Spanish) in response to technical developments in communication. It will constitute an essential tool, enabling Dianova to achieve the goals we have set ourselves for the coming years.

The new website provides a global vision of the Dianova network with a map showing the different countries where the network is located and the various projects proposed in them. New sections have been created to reflect and support the work of Dianova’s operational headquarters, following the example of the Advocacy Section. This section presents the positioning of the Dianova network in various areas important for its initiatives, in particular via its Manifesto and through the various campaigns and activities related to these areas. In addition, the campaigns implemented by the network are showcased in the new Take Action interactive section, in which users can find information, participate in cyber campaigns and in the Dianova Network’s various causes, projects and activities. Finally, the News section offers users the opportunity to select news related to the network or its areas of activity through advanced search functions.

Results after one month, compared with the same period in 2015:

- 30% increase in the number of visits
- 25% increase in the number of single users
- 124% increase in pages visited
- 50% increase in pages viewed and average length of visit

6.2 Cyber Campaigns & Newsletter

Two cyber campaigns were launched this year to mark two United Nations days: the International Day against Drug Abuse and Illicit Trafficking, on 26 June, and the International Day for the Elimination of Violence against Women, on 25 November.

Online Addictions Awareness Campaign

An innovative social advertising campaign was launched on the International Day against Drug Abuse and Illicit Trafficking, on 26 June. The #DontLetThemPossessYou campaign was designed by two advertising professionals in a pro bono collaboration, and then submitted to an international advertising competition.

The campaign is aimed primarily at young people, to raise their awareness of the risks associated with the inappropriate use of the internet and social networks, and to give them access to information resources, follow-up and specialized treatment opportunities. The campaign invites reflection through the use of the codes specific to social networks, namely exaggeration, parody and humour. Its light-hearted tone helps approach the problem humorously, rather than by playing on fear or emphasizing prohibition, while clearly marking out the risks associated with these addictive behaviours.
#DontLetThemPossessYou – Creative Concept

The campaign draws a link between being hooked on your mobile, tablet or computer and being possessed by an evil spirit which prevent you from being yourself and from living a normal life.

The campaign offered downloadable media kits for social networks as well as documentation on the scientific framework of online addictions.

Event’s Online Impact
Total: 758,957

- **39%** Other online channels
- **1%** By email

Other online channels: web sites and specialized blogs, information platforms and UN TV
Dianova channels: Dianova.ngo, Facebook, Twitter, LinkedIn and Google+

Dianova Portugal has scored success in implementing the campaign through various channels both on- and offline, but also via the press and television, photo exhibitions, awareness-raising sessions with young people, and contact with researchers in this area. Thanks to the many partners it attracted, the campaign reached out to **1,367,868 young people and adults**.

Campaign: 16 days of activism against gender violence - #16Days #OrangeTheWorld

For 25 years, civil society and non-governmental organizations have built on the International Day for the Elimination of Violence against Women on 25 November, by undertaking a 16-day trip to raise public awareness of the impacts of violence on millions of women and girls around the world.

Dianova took part in the campaign by publishing each day a different message on its website and through its social media, and by inviting the public to read articles on the issue and to download media kits for sharing the campaign on the social networks.

United Nations international days

During 2016, Dianova participated in 29 of the United Nations’ international days devoted to themes relating to our network’s fields of activity. These international days highlighted many different problems, with the launching of calls for action to encourage governments to take effective measures and mobilize all citizens. To achieve a wide outreach, we have designed a varied array of thought-provoking visuals and messages.

The Dianova Network NewsBriefs

Each month, a total of 11 newsletters were sent out by e-mail to the Dianova network’s different stakeholders (supporters, donors, partner international organizations and NGOs, users’ families, etc.). The Dianova network newsletter is displayed in English, with the option of clicking direct links to the Spanish and French versions of the various articles.

Newsletters scored an average opening rate of 29.4% (vs. an average rate of 22.2% for non-profit organizations in general). The click rate was 3.5% on average, vs. a rate of 2.2% for non-profit organizations as a whole.

6.3 Internationalization of Treatment Service in Portugal

A pilot project to internationalize the treatment service has been implemented in the Quinta das Lapas Addiction Treatment Centre (Dianova Portugal), with a short-term, intensive programme for third-country nationals.

The focus in 2016 was on: 1) developing the marketing and communication plan including the production of leaflets, flyers, CD-ROMs, the landing page and website, an AdWords campaign, etc.; 2) holding exploratory meetings with the diplomatic delegations of Norway, Luxembourg, Sweden and Portugal, and with the Portuguese associations active in these countries; 3) various exchanges of best practices and promotion of our services (to the Brazilian and Swedish delegations); and 4) institutional visits to potential referral organizations in Oslo, Luxembourg and Stockholm.
6.4 Co-financed National & International Projects

Thanks to the introduction of corporate management practices aimed at gaining a broader view of existing funding opportunities, several Dianova member organizations have developed national and international projects with financing or co-financing from the European Union, various national public bodies or charitable foundations.

September 8: International Literacy Day

The moral code of the end of the millennium does not condemn injustice, but failure
Eduardo Galeano

22 April: International Mother Earth Day

The earth is not our mother, it is our child: our duty is to protect her

October 5th: World Teacher’s Day

We need teachers and educators are empowered, adequately recruited, well-trained, professionally qualified, motivated and supported within well-resourced, efficient and effectively governed systems.
Incheon Declaration 2015

June 20: World Refugee Day

They flee war and risk their lives: they have the right to find safe haven abroad
Human Resources
Dianova’s human resources are our greatest source of energy and enrichment. It is our staff who has enabled our organization to overcome challenges and make our best initiatives succeed. It is the very same people who enable us to plan ambitiously for the future on the basis of a strong mission and a powerful vision, on which we draw for inspiration day by day.

That is why one of the main challenges facing our organization is the efficient management of staff across the Dianova network, based on a sense of belonging, well-being at work, the nurturing of talent, skills development and gender equality on the teams and the executive boards.

### 7.1 Characteristics

In 2016, the total number of employees and collaborators was 587 (Dianova International and ordinary members only)

**The 2016 Dianova network meetings**

The Dianova Network meetings took place from 27 to 29 June in Madrid, and were attended by around 40 delegates, some from member organizations and some as guests. These meetings were characterized by the valuable formal and informal exchanges, and by the great diversity of practice among professionals committed to a common mission, while coming from widely differing backgrounds and environments.

One of the key elements of these meetings was the presentation of different strategic plans developed by ordinary network members on the basis of Dianova’s strategic guidelines for 2016-2020 (read more on page xx). Also noteworthy was the presentation of several new programmes and initiatives, such as the residential care programme for patients with autistic disorders in Quebec, or the outpatient aftercare centre in Chile dedicated to the integrated care of patients with both addiction and mental health problems.
Financial Resources
The annual accounts of Dianova International are drawn up in accordance with the legal provisions relating to the keeping of the accounts and presentation of commercial accounts provided for in the Swiss Code of Obligations (Articles 957 to 962 CO).

The annual accounts have been established in accordance with accrual accounting principles, with the various balance sheet positions being valued in accordance with the principle of continuity of activity.

The accounting is carried in Euros (EUR), the annual accounts being drawn up in that currency. At the time of its presentation to the Swiss finance administration, the different positions of the balance sheet and income statement are valued at the exchange rate tax established by the Swiss federal administration of December 31, 2016.

The volume of transactions registered by Dianova International in 2016 amounted to EUR 707,009.84, the income statement showing a positive result of EUR 9,386.42. About 90% of this volume is directly related to the organizational, operational and management support that Dianova International provides to members of the Dianova Network. In this context, it is worth mentioning the grants awarded to Dianova Italy for the organization, at the end of September in Rome, of the 16th EWO-DOR International Symposium and Dianova Portugal for the development and implementation of the Internationalization Project of Therapeutic Service.

At the end of 2016, Dianova International granted a medium-term loan of EUR 100,000 to Dianova Sweden to support and finance the general restructuring of its activities.

Finally, note that the members of the Dianova Network in the fulfilment of their common mission and social actions managed during 2016 an overall figure of EUR 19,082 million, Dianova International representing 3.83% of that figure.

The annual accounts for the financial year 2016 have been examined and reviewed by the external auditor AMS Audit, SA, Carouge - Geneva (Switzerland). The corresponding Independent Audit Report is available on the Dianova International website (https://www.dianova.ngo).

The annual accounts, once approved by the General Assembly, are deposited with the Finance Administration of the Canton of Vaud.
